Hawkeye Industries™

IN-MOLD COATING SYSTEM

LIGHT WEIGHT, EPOXY COMPATIBLE SOLUTIONS

DURATEC™

SURFACING TECHNOLOGY

WEIGHT SAVINGS

Use up to half the amount of product compared to traditional gelcoats, reducing overall weight of the part.

ENHANCED IMPACT RESISTANCE

With higher elongation properties, you achieve better impact resistance, which mitigates the risk of cracking or damage.

REDUCE FINISHING TIME BY UP TO 60%

These fast-drying primers and coatings significantly cut down on the time needed for finishing. Say goodbye to hours of sanding, patching, and repairing, which are common with traditional gelcoats.

ABOUT THE BENEFITS

Eliminate prep time, sanding, and extra weight, while achieving a flawless finish right out of the mold! These advanced coatings from Duratec are designed to streamline your production process, eliminating unnecessary steps while delivering superior surface quality. Compatible with polyester, vinyl ester, and most epoxy resin systems, Duratec products provide excellent adhesion, improved durability, and a lightweight alternative to traditional gelcoats in-mold - without the need for post-painting.

ABOUT THE MARKET

These products are particularly beneficial for composite part manufacturers seeking a lightweight alternative to traditional gelcoat, industries requiring smooth, durable, and paint-ready surfaces, and fabrication shops looking for faster, more reliable production solutions.

Hawkeye Industries™

IN-MOLD COATING SYSTEM

DURATEC SURFACE PRIMER

The ultimate high-gloss primer for superior surface prep.

- High-build, fast air-cure technology
- Easy to sand and polishes to a gloss
- Adheres to epoxies, fiberglass, wood, MDF & more

COLOR VARIATIONS

Grey (707-002)
Light Grey (707-082)
Black (702-003)
White (714-002)

DURATEC VINYL ESTER PRIMER

Durable, high-performance primer with unmatched strength featuring chemical and water resistance.

- Rapid cure, ready to sand in 1-4 hours
- High build: up to 40 mils wet-on-wet with no sagging
- Excellent adhesion to all substrates, including metals

COLOR VARIATIONS

Grey (1799-006)
Untinted (1704-006)
Black (1702-006)
White (1794-006)
White In-Mold (1794-034)
best for in-mold use

DURATEC HV HI-GLOSS COATING

A lightweight, high-gloss coating that delivers a durable surface - perfect for replacing gelcoat without sacrificing performance.

- Sands easily and polishes to a non-wax high gloss finish
- Self-leveling formula flows smoothly for a flawless surface
- Thin build of just 10 mils provides a strong surface while saving weight

COLOR VARIATIONS

White (614-070)
Black (602-070)

DURATEC CLEAR POLYESTER SUNSHIELD

Long-lasting, UV resistant, high-gloss protection for interior and exterior applications

- UV-resistant – prevents yellowing in sunlight
- High-gloss, wet-look finish with excellent clarity
- Chemical and impact-resistant for long-term durability

COLOR VARIATIONS

Clear (904-061)
HV Clear (904-070)
best for in-mold use

DISCLAIMER

Many products can be color-matched to meet your specific needs (MOQ may apply). Always test for product compatibility and satisfaction before use. For full application and troubleshooting information, please visit our website.
