BUILD BETTER BOATS

Hawkeye Industries™

make a flawless GEL COAT REPAIR

VINYL ESTER PRIMER

Save time and reduce labor. Sprays like paint and is easy to sand. Outstanding osmosis resistance with a durable surface. Available in grey or white.

HI-GLOSS ADDITIVE

Eliminate the use of wax or PVA by bringing Duratec air-cure technology to the gel coat surface. Blend with your gel coat for a quick, long-lasting repairor to elevate the full gel coat job.

AQUA BUFF

Sand out scratches with our AB1000, or bring out the ultimate shine on your boat surface with AB2000. Easy to use, economical in choice, and oh so shiny!

build a BETTER BOAT

Duratec products save money in reduced labor due to faster sanding. Vinyl ester primers provide the ultimate water barrier. Duratec will stick to most prepared epoxy surfaces. Great for one-off hulls, or to eliminate uneven surfaces on polyester, vinyl ester, or epoxy laminate. For pattern coatings and mold repair, please see our website.

VINYL ESTER FAIRING PRIMER

For fast fairing. Easy to sand with a long board. Apply by spray, pile on up to 1/8" per application. Low density. Pastel blue makes it easy see where the fairing primer is sanded.

QUICK LEVELING TOPCOAT

Off-the-gun glossy coating. Resistant to oil, water, brake fluid. Provides a smooth, shiny finish for the B side of laminate. Great for bilge spaces, exhaust ducting or engine rooms. Low VOC, Low HAPS.

AQUA BUFF

Great for cleaning faded gelcoat, polishing molds, and final prep. See our online product selector to choose the ideal Aqua Buff for your job. Economical and efficient.
